1. Is there a Watershed Monitoring Plan or a Watershed Assessment and Protection Plan in place that we would need to adhere to? If yes, would it be possible to get a copy of that plan?

Response: The City does not have an electronic/digit copies of the plans; however, Contractor may request an open records request to view the paper documents via the City Clerk's Office. Any Contractor wanting to do so may ask for the 2011 Watershed Protection Plan prepared by Falcon Design/G. Ben Turnipseed Engineers.

2. Would it be possible to get a copy of map/figure showing the sampling locations?

Response: Water quality was conducted at four (4) locations throughout the City's service area. Site locations and designations were as follows:

- 2.1. B-ST02: Brush Creek at Pinehurst Drive (N 33.55272 W.84.20784);

Response: The City of Stockbridge will accept only EPD approved labs; the City does not have information pertaining to other cities concerning this project.

4. Is there a preferred format that should be used for the technical proposal, or do we just need to submit the pricing sheet on page 5 of 6

Response: The City wants all of the documents returned unaltered/unchanged and they must include your company's E-verify information, Insurance acknowledgement, this addendum and your company's pricing information.

5. Our firm is very interested in this project and will submit a proposal in accordance with the RFQ. It would be most helpful and would make our proposal more competitive if we could obtain a simple map showing the approximate locations of the four (4) sample sites.

Response: See response to question #2 for additional information concerning this request for clarification.
